PLEASE REFER TO THE NOTES AT THE BOTTOM OF EACH PAGE AS YOU COMPLETE THE WORKSHEET

The basic purpose of this worksheet is to help you estimate your needed amount of insurance in the event of a major loss. Completion of this worksheet should be a collaboration between you and your accountant. Using your Profit & Loss Statement, your accountant should be able to complete the worksheet with actuals for the most recent 12 month period. You will need to tell him or her your anticipated level of business activity for the upcoming 12 months of the policy period and the effect on the various income and expense numbers. This worksheet must be completed on an accrual basis. Separate worksheets will need to be completed if separate limits of insurance apply per location, division or type of property.

- (A): Gross Rents: Consider changes in occupancy ratios, changes in rents for expiring leases, and business conditions if rents are a percentage of tenant sales.
- (B): If NOT included in Gross Rents Tenant Charges could include a portion of tenants' utility charges. If tenants are on a triple net lease, costs are more significant. Miscellaneous might include income from parking, laundry or recreational facilities among others.
- (E): Ordinary Payroll expenses include payroll, employee benefits if directly related to payroll, FICA and Medicare payments, union dues, and Workers Compensation premiums.

Some points to consider in deciding whether to exclude or limit Ordinary Payroll (i.e. other than officers, executives, managers and employees under contract):

- Would you lay off all your other employees in the event of a short interruption?
- Could you get them back when tenantability is restored or would they have gone elsewhere?
- (G): Period of Restoration Assume the worst possible situation, such as a devastating fire or explosion and the sprinkler system is impaired or there is heavy smoke damage requiring excessive decontamination, OR a catastrophe peril such as a tornado or hurricane occurs and severely damages your property. Your ability to resume normal operations may be impaired by one or more of the following:
 - Delays in obtaining Architectural & Engineering Plans, Zoning Variances, Building Permits, or approvals from Certification Boards.
 - 2. Climactic conditions that would prohibit or postpone repairs or rebuilding.
 - 3. Contractors or others you would depend upon to help you out are loaded with work and have no excess capacity.

I.	Minimum Amount of Business Income Insurance needed for your estimated Period of Restoration (Carry over from previous page)	-	\$		
J. Extended Business Income: After you are back in business, how long will it take to get your business back to pre-loss income levels? Consideration should be given to difficulty in regaining your tenant base, replacing lost or cancelled contracts etc. Indicate number of months you anticipate reduced income after resuming normal operations months.					
	ADD amount of estimated reduced income for the number of months indicated above.	+	\$		
K.	Are Extra Expenses to be insured AND included in your Business Income Limit of Insurance?				
	If YES, ADD Extra Expenses incurred to avoid or minimize suspension of business and continue operations. (Calculate using Worksheet on page 3). If NO, leave blank.	+	\$

AGREED VALUE

This provision <u>suspends</u> the Coinsurance provision but does not eliminate it. In order for Agreed Value to be in effect, a signed business income worksheet must be submitted to and accepted by us prior to a loss.

More Current Annual Amount of Needed Insurance

Policy Limit of \$3,000,000 < \$4,000,000 required, Therefore,

\$8,000,000 x 50% coinsurance

\$3,000,000 ÷ \$4,000,000

.75 x \$1,000,000 loss

Coinsurance Penalty =

A new worksheet must be submitted if you (1) change the limit of insurance mid-term, or (2) at the end of each 12 month policy period. Failure to submit a signed current worksheet will automatically reinstate the Coinsurance Provision for the period going forward.

\$8,000,000

\$4,000,000

.75 factor

\$750,000 payable

\$250,000 of loss not payable

EXTRA EXPENSE WORKSHEET
